Frumi Barr, Executive and Professional Coach for the Accounting Market

I found Heather's book to be the single most useful collection of career & job web sites for both the employer/recruiter and the job seeker. The information is organized very logically and is very easy to find. I have found this book invaluable both for my own job search and in my position as a VP of human resources.

Vivien Winneke-Book Review

Book is very well organized, easy to navigate and content rich. The external tabs make it easy to look up subject areas of interest. It is a very good general review of the various websites that most people can use in their job search
